# StorageTek SL150 "Big Capacity" Tape Library Bundle

| System | Drive Type | Slots | Native Capacity * |
|--------|-----------|-------|-------------------|
| 1 | Two LTO 5 HH Fibre (HP) | 300 | 450 TB |
| 2 | Two LTO 6 HH Fibre (HP) | 300 | 750 TB |
| 3 | Two LTO 7 HH Fibre (IBM) | 300 | 1.8 PB |

* uncompressed and assumes all slots are using the same size cartridges as the drive. Different LTO drives can be mixed in the same library

**What is included?**

- A new, 300 slot, dual drive StorageTek SL150 Tape Library (8Gb FC).
- 5 Year Oracle Premier Support – 24/7/365 coverage.
- Delivery and Onsite installation/configuration.
- Two 50/125 LC-LC fibre cables (up to 5m), redundant power.
- 18 spare Drive slots – extra drives can be added or self-fitted later.
- Tape Starter Pack comprising 30 LTO tapes, 300 customised barcode labels, cleaning cartridge and diagnostic cartridge (cartridges and labels appropriate to drive).

**What do you need to provide?**

- 21 contiguous rack slots.
- Two standard power supply sockets in the rack.
- Two spare ports on an 8Gb capable fibre switch. (LC)
- A network address for the management port and a network cable connected into your Ethernet switch of choice.

**What do you need to do?**

- Configure your ports on your fibre switch and the backup host(s).
- Configure the library into your backup software.

**Total all-inclusive System Cost?**

| System | Drive Type | Slots | Cost * |
|--------|-----------|-------|--------|
| 1 | Two LTO 5 HH Fibre (HP) | 300 | €18,000.00 |
| 2 | Two LTO 6 HH Fibre (HP) | 300 | €19,700.00 |
| 3 | Two LTO 7 HH Fibre (IBM) | 300 | €24,800.00 |

* VAT to be added, prices correct April 2016 and subject to change.

**Intuitive colour front panel display & remote management browser**

**Zero maintenance system – self auto-cleaning without recourse to backup software.**

- 4 slot mail slot
- 20*15 slot bulk load magazines
- The SL150 can be configured as two domains, one drive assigned to each. (8 domain capable with extra drives)
- **Five Year Oracle Premier Support included!**

- LTFS capable (with extra kit)

Drag-And-Drop Files Between Disk and Tape

FILES STORED ON **DISK**       FILES STORED ON
